TECHNICAL SKILLS

Programming Languages: JavaScript

Database: MySQL, MongoDB, PostgreSQL

Libraries: Next.js, React.js, Node.js, Express.js, Tailwind CSS, Bootstrap, Shadcn, Socket.io

Programming Concepts: OOP, Data Structures and Algorithms, Database management System

EXPERIENCE

Full-Stack Developer Intern

Jan 2024 – Jun 2024

[Binbag.in](#)

Guwahati (Remote)

- Developed Binbag's company website using **Next.js**, **TypeScript**, **Tailwind CSS**, and **MongoDB**.
- Built a custom **CMS platform** for managing blogs, job listings, and dynamic content with rich admin controls.
- Designed and deployed backend APIs using **Node.js + MongoDB**, improving content retrieval and page load times.
- Integrated a **CRM-backed inquiry system** to streamline customer leads directly into Binbag's sales pipeline.
- Implemented a **Markdown editor** for CMS to enable non-technical team members to create content efficiently.
- Secured the platform with **JWT-based authentication**, **Google reCAPTCHA**, and input validation.

PROJECTS

You Sync | *Next.js, Typescript, Tailwind, Pusher.js, and PostgreSQL*

[Live Project](#) | [Github](#)

- Built a real-time **web app** with **Next.js**, **TypeScript**, **TailwindCSS**, and **Postgresql**, enabling 100+ concurrent users per room to watch YouTube videos in sync
- Integrated **Google OAuth** and **guest login (45-min sessions)** using **NextAuth + JWT**, with automatic session cleanup to maintain performance and database health.
- Designed and optimized a **PostgreSQL schema with Prisma ORM** supporting 50+ rooms, 1,000+ messages/day, role-based access, and cascade deletes for inactive users/rooms.
- Implemented **admin controls** for managing participants (kick, delete, ban) and real-time notifications, ensuring robust moderation across multiple rooms simultaneously.
- Built a live **chat system** for instant conversations between room participants during watch sessions.

Code Clash | *Next.js, Typescript, PostgreSQL, Prisma, Pusher.js, Shadcn UI, Tailwind CSS*

[Live Project](#) | [Github](#)

- Developed a real-time **competitive coding duel platform** using **Next.js**, **TypeScript**, **Node.js**, and **WebSockets**, enabling head-to-head coding battles with live submission updates under 300ms latency.
- Integrated **Google OAuth** and **Guest Login** with secure session handling using **NextAuth + JWT**, including guest expiry logic and automatic cleanup of inactive users.
- Designed a scalable **PostgreSQL database schema using Prisma ORM** to manage users, rooms, matches, submissions, and leaderboards with relational integrity and cascade deletes.
- Built a **matchmaking system** for instant multiplayer duels challenges, including reconnection support, match timers, and automated winner detection logic.

EDUCATION

Maharaja Surajmal Institute

Delhi, India

Bachelor of computer applications, BCA, CGPA[8.9]

Jul 2022

Amity University

India

Masters of computer applications, MCA, CGPA[8.3]

Feb 2025
